FINDINGS FOR PROJECTS EXEMPT FROM CEQA:

The Planning Commission finds that the project will not have any significant effect on the environment and is Categorically Exempt from the provisions of the California Environmental Quality Act (CEQA) pursuant to Section 15301, Class 1—*Existing Facilities*, because the project involves a minor modification to the operation of the existing development involving negligible expansion of an existing use.

SUGGESTED FINDINGS FOR APPROVAL – CONDITIONAL USE PERMIT NO. 13-013:

1. Conditional Use Permit No. 13-013 to permit the on-site sale, service, and consumption of alcoholic beverages (beer, wine, and distilled spirits) within a vacant approximately 5,384 sq. ft. eating and drinking establishment and a new approximately 398 sq. ft. outdoor dining area at an existing mixed-use center site in the Beach and Edinger Corridors Specific Plan zoning designation will not be detrimental to the general welfare of persons working or residing in the vicinity or detrimental to the value of the property and improvements in the neighborhood. The proposed sales and service of alcoholic beverages is regulated by the provisions of Chapter 9.44 of the Huntington Beach Municipal Code. The subject request will not result in noise, safety, or compatibility issues. Residential properties to the south will be adequately buffered from the subject building by an approximately 500-foot separation, including a 250-foot wide parking lot, a 225-foot deep and 32-foot high commercial building, a 25-foot wide driveway, and a 6 ft. high block wall separating the properties. Residential properties to the north are adequately buffered from the subject building by an approximately 370-foot separation, including a 25-foot wide planter area, a 100-foot wide Edinger Avenue right-of-way, a 215-foot wide parking lot, and a 30-foot wide planter area. The residential uses are located in a highly urbanized area where there is a mix of residential and commercial uses and where no impacts are expected to occur. In addition, the BECSP and General Plan land use designation anticipated restaurant uses with alcohol service, sale and consumption in this area. The request for alcohol is ancillary to the primary restaurant use and will serve to augment the overall dining experience. Furthermore, the consumption of alcoholic beverages will be wholly contained within the building's interior and designated outdoor dining area and will not generate detrimental impacts onto surrounding properties.
2. The request to permit an existing restaurant to add alcohol sales and consumption will be compatible with surrounding uses because the project is located within an existing mixed-use commercial center. The restaurant is surrounded by commercial and restaurant uses and therefore will be consistent with the existing land use pattern and compatible to its surroundings. The use will be required to comply with conditions of approval pertaining to alcohol service and operation to assure that any potential impacts to the surrounding properties are minimized.
3. The request to permit an existing restaurant to add alcohol sales, service and consumption will comply with the Town Center Boulevard segment of the Beach and Edinger Corridors Specific Plan (BECSP), and other applicable provisions in Titles 20-25 of the Huntington Beach Zoning and Subdivision Ordinance (HBZSO). The BECSP allows eating and drinking establishments with alcohol service subject to approval of a conditional use permit. The BECSP and General Plan land use designation anticipated restaurant uses with alcohol service, sale and consumption in this area. The request for alcohol is ancillary to the primary restaurant use and will serve to augment the overall dining experience. There is no physical expansion that includes additional floor area to the existing building as part of this request and the proposed use will comply with all building occupancy/exiting requirements.

4. The granting of the conditional use permit to permit the on-site sale, service, and consumption of alcoholic beverages (beer, wine, and distilled spirits) within an existing eating and drinking establishment and proposed outdoor dining area is consistent with the General Plan. The General Plan Land Use Map designation on the subject property is M – sp – d (Mixed Use – Specific Plan Overlay – Design Overlay). The proposed project is consistent with this designation and the policies, objective, and goal of the City's General Plan as follows:

A. Land Use Element

Objective LU 7.1 Accommodate the development of a balance of land uses that (a) provides for the housing, commercial, employment, cultural, entertainment, and recreation needs of existing and future residents, (b) provides employment opportunities for residents of the City and surrounding sub-region, (c) captures visitor and tourist activity, and (d) provides open space and aesthetic relief from urban development.

Policy LU 7.1.1 Accommodate existing uses and new development in accordance with the Land Use and Density Schedules.

Policy LU 10.1.8 Require that entertainment, drinking establishments, and other similar uses provide adequate physical and safety measures to prevent negative impacts on adjacent properties.

The proposed project will permit the sale, service and consumption of alcoholic beverages within an existing restaurant suite and proposed outdoor dining area at the Edinger Plaza commercial center. The site is located within the Beach and Edinger Corridors Specific Plan designation and the use is consistent with the Building Use Regulations and compatible with the surrounding mix of uses. The proposed conditional use permit will provide for the business needs for a successful restaurant establishment by permitting the sale of alcoholic beverages in a safe manner for customers and residents of the surrounding area.

B. Economic Development Element

Policy ED 2.4.3 Encourage the expansion of the range of goods and services provided in Huntington Beach to accommodate the needs of all residents in Huntington Beach and the market place.

The project is located along a major corridor of the City that contains existing restaurants, retail, and entertainment uses. The project serves to expand the range of goods and services provided in the area and facilitate continued viability of the commercial center.
